

The Adventures of Dave and Augie

MAKE A STATUE OF LIBERTY CROWN EPISODE 1 – STATUE OF LIBERTY

Materials:

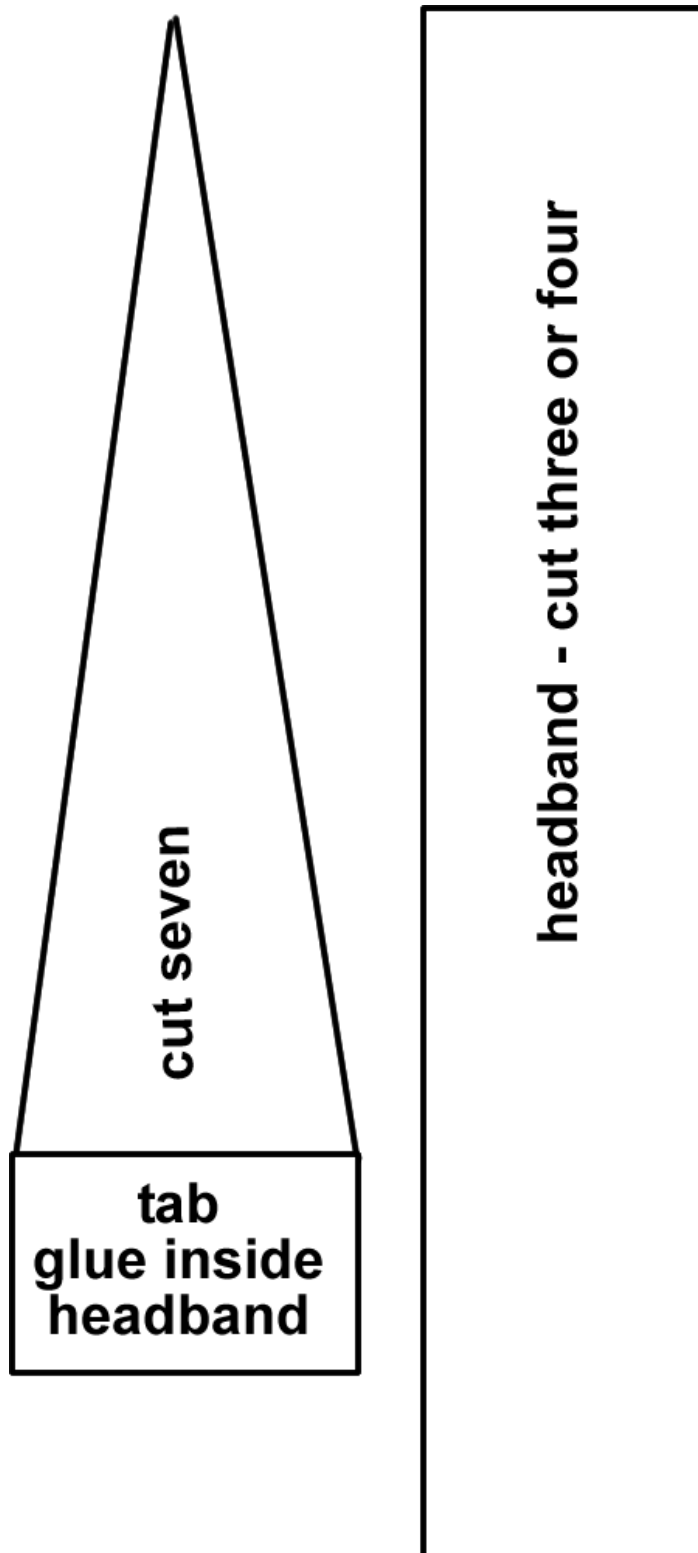

- Turquoise construction paper
- Scissors
- Crayons or markers

- Glue

Directions:

1. Cut out the spike and headband patterns. Trace 7 spikes and 3 or 4 headbands onto the turquoise construction paper, and then cut them out.
2. Glue the headband strips to each other, overlapping them about 1 inch, to form one long strip.
3. Have someone help you measure the headband around your head, and then cut it to the proper length (make sure you leave some overlap for gluing the ends together later). Draw in the windows (you might even add some little people!). Then glue the two ends together to form the ring that sits on your head.
4. Glue the 7 spikes into places on the headband.
